

ABOUT THE CONFERENCE

Tech4Sustain 2026 is envisioned as a premier academic forum dedicated to exploring the role of emerging technologies in addressing real-world sustainability challenges. It brings together faculty members, researchers, scholars, postgraduate students, research fellows and industry professionals for critical research exchange, faculty development and technological advancement, contributing meaningfully to sustainable development through regional-language academic communication.

CONFERENCE OBJECTIVES

National Priorities

Align research with national skilling ecosystems, ATAL frameworks, and sustainable growth.

Emerging Technologies

Foster innovation in AI, IoT, Green Energy, Semiconductor, and Cyber-Physical Systems.

Regional Dissemination

Disseminate high-impact research in regional languages (primarily Gujarati) with English bilingual support.

Inclusiveness

Enhance accessibility and equity in technical education per AICTE VAANI directives.

Industry-Academia Synergy

Facilitate strong collaborative platforms addressing contemporary technological challenges.

Practical Impact

Nurture scalable, impactful solutions for renewable energy, sustainable cities, and climate resilience.

WHO CAN PARTICIPATE

Researchers & PhD. Scholars, Industry Professionals, Start-up Innovators, Faculty members, UG/PG Students

GOVERNANCE & IMPORTANT DATES

Chief Patron

Padma Shree Dr. H. M. Desai, Vice Chancellor

Patron

Shri. Ankur Desai, Director

Adviser

Dr. Vipul A. Shah, Dean, Faculty of Technology

Convener

Dr. Purvang Dalal, Professor & Head, EC Engineering

Coordinator

Dr. Narendrakumar Chauhan, Associate Professor

Co-coordinators

Dr. Mitesh Limachia, Associate Professor

Dr. Sagar Kavaiya, Assistant Professor

Organizing Committee

Dr. Saumil Mathur, Professor, Faculty of Dental Science

Dr. Mehul Patel, Professor, Faculty of Pharmacy

Dr. Amit Mistry, Professor, Faculty of Medical Science

Dr. Kailash Patil, Associate Professor, Mathematics

Dr. Rajesh Joshi, Head, Mechanical Engineering

Dr. Vimal Gandhi, Professor, Chemical Engineering

Dr. Himanshu Patel, Assistant Professor, Inst. & Control Engineering

Milestone	Key Date
Call for Paper	05 September, 2026
Last Date for Submission	25 October, 2026
Acceptance Notification	09 November, 2026
Registration & Camera Ready Submission	25 November, 2026

HIGHLIGHTS

Sponsored under AICTE-VAANI Scheme, **Zero Registration Fee**

Bilingual Presentations: Gujarati & English

Peer-Reviewed Proceedings

Keynotes, Expert Talks & Panel Discussions

Official ATAL Participation Certificates

AICTE - VAANI 2026-27

Vibrant Advocacy for Advancement and Nurturing of Indian Languages

2 DAYS

INTERNATIONAL CONFERENCE

IN BILINGUAR MODE (GUJARATI/ENGLISH)

on

Technology Driven Pathways to Sustainable Growth
Tech4Sustain 2026

Technology for Sustainable Development
through Regional-Language Academic Communication

Theme : Energy, Sustainability & Climate Change

December 19-20, 2026

(OFFLINE/HYBRID MODE)

Venue: Multimedia Hall, Dharmsinh Desai University, Nadiad

Department of Electronics and Communication Engineering
Faculty of Technology, **Dharmsinh Desai University**
Nadiad, 387 001. Gujarat. INDIA

tech4sustain@ddu.ac.in | 98984 49881 (Coordinator)
Website: www.ddu.ac.in

AICTE Training and Learning (ATAL) Academy

Publication & Expected Outcomes

The presented papers during the conference will be published in conference proceedings with **ISBN Number**.

TECHNICAL TRACKS

Artificial Intelligence, Machine Learning & Data Analytics

AI/ML • Deep Learning • Generative AI & LLMs • AI Agents • Computer Vision • NLP • Predictive & Prescriptive Analytics • Big Data • Edge AI & TinyML • Explainable & Responsible AI • AI for Healthcare, Engineering, Business & Society • Digital Twins • Scientific ML

IoT, Embedded Systems & Smart Infrastructure

Internet of Things • Industrial IoT • Embedded Systems • Edge/Fog Computing • Smart Healthcare • Smart Agriculture • Smart Buildings • Smart Manufacturing • Sensors & MEMS • Energy Harvesting • Connected Devices • IoT Security • Remote & Rural Applications

Sustainable Technologies, Energy & Environment

Renewable Energy • Energy Storage • Electric Vehicles • Wireless EV Charging • Smart Grids & Microgrids • Hydrogen & Fuel Cells • Energy Management • Green Manufacturing • Waste & E-Waste Management • Water & Wastewater • Environmental Monitoring • Carbon Management • Climate-Resilient Engineering • Green Chemistry

Communication Systems, Signal Processing & Networks

5G/6G • Wireless Communication • Massive MIMO • mmWave/THz • Integrated Sensing & Communication • Satellite & Space Communication • Optical/Free-Space Communication • SDR/Cognitive Radio • Digital Signal Processing • Biomedical Signal Processing • Speech & Audio • Wireless Sensor Networks • Vehicular/Drone Networks • AI for Communications • Network Security

Industry 4.0/5.0, Automation & Digital Manufacturing

Smart Factories • Cyber-Physical Production • Industrial Automation • PLC/SCADA • Robotics • Collaborative Robots • Autonomous Systems • Digital Twins • Predictive Maintenance • Additive Manufacturing & 3D Printing • Smart Quality • Industrial AI • Human–Machine Interaction • AR/VR • Smart Supply Chains • Human-Centric Industry 5.0

Smart Cities, Mobility & Cyber-Physical Systems

Smart Infrastructure • Urban IoT • Intelligent Transportation Systems • Electric & Autonomous Mobility • Connected Vehicles & V2X • Smart Public Transport • Smart Parking • Cyber-Physical Systems • Smart Buildings • Smart Water & Waste • GIS & Geospatial Intelligence • Urban Disaster Management • Digital Twins for Cities • Smart Governance & Digital Public Infrastructure

Semiconductor, VLSI & Emerging Electronics

VLSI • ASIC/FPGA • RISC-V • AI/ML Hardware • AI Accelerators • Semiconductor Fabrication & IC Prototyping • MEMS • Advanced Packaging • Chiplets • 2.5D/3D Integration • Power Electronics • SiC/GaN • Emerging Memories • In-Memory Computing • Flexible/Wearable Electronics • RF/Microwave ICs • Semiconductor Testing & Reliability • Chip Security

Interdisciplinary Innovations Aligned with ATAL Priorities

Deep-Tech Innovation • Healthcare Technology • AgriTech • Climate & Environmental Technology • Disaster Management • Assistive & Inclusive Technology • Defence & Strategic Technologies • Space & Aerospace • Advanced Materials • Robotics & Autonomous Systems • Cybersecurity • Digital Public Infrastructure • Technology Entrepreneurship • Frugal & Affordable Innovation • Human-Centric Technology • EdTech

SCOPE & SUBMISSION MODES

Authors and researchers are invited to submit original, high-quality research papers, review articles, and practical implementations contributing to sustainability through emerging technologies.

SUBMISSION MODES (CHOOSE EITHER)

Authors can submit their manuscripts through either of the following two convenient channels:

Mode 1 Online via Google Form

Fill the author details & upload manuscript at:

<https://forms.gle/sdonu8A6ny4c4op49>

Mode 2 Direct Email Submission

Email your paper (DOCX / PDF) directly to:

tech4sustain@ddu.ac.in

Subject Line: Tech4Sustain 2026 Paper - [Track Name] - [Author Name]

REGISTRATION

★ ZERO REGISTRATION FEE ★

Fully funded under the AICTE VAANI Scheme 2026-27.

All the authors of selected paper MUST register on ATAL Mandatory ATAL Registration Steps:

- Log in to ATAL Portal: <https://atalacademy.aicte.gov.in/login>
- **Select Conference & enter VAANI Application No: 2806237563**
- Only registered participants/presenters will be awarded official Participation & Presentation Certificates.

ABOUT THE UNIVERSITY

Dharmsinh Desai University (DDU), Nadiad, Gujarat, India, is a premier multidisciplinary institution committed to excellence in education, research, innovation, and societal development. Established in **1968**, the University began with a focus on technical education and has evolved into a multidisciplinary center of higher learning with programs spanning Technology, Dental Science, Pharmacy, Management & Information Science, and Medical Science.

DDU is committed to developing competent professionals, fostering creativity and innovation, and promoting research that addresses emerging technological and societal challenges. The University places strong emphasis on industry–academia collaboration, interdisciplinary research, technology development, entrepreneurship, and human resource development.

DDU provides an academically stimulating environment supported by modern infrastructure, experienced faculty, research facilities, and a vibrant campus community. DDU also actively promotes academic and research collaborations with national and international institutions.

DDU's vision is to evolve as a multidisciplinary and learner-oriented university, responsive to industry and societal needs, while strengthening research and development in areas of national priority. DDU continues to advance its legacy of education, innovation and service to society, preparing students and researchers to contribute meaningfully to a rapidly changing global landscape.

DEPARTMENT OF EC ENGINEERING

The **Department of Electronics & Communication Engineering (EC)**, established in **1981**, is one of the flagship departments of the Faculty of Technology, DDU. The Department offers **UG, PG and Ph.D. programmes**. With its strong academic foundation, experienced faculty, active research culture, industry and institutional collaborations, accomplished alumni, and commitment to emerging technologies, the **Department** provides a vibrant platform for **research, innovation, knowledge exchange, and international academic collaboration**.
